EXPERIENCE

SAAYAM San Jose, CA | Jul 2025 – Present
Software Engineer (Team Lead) React, Tailwind CSS, Python, Java

- Optimized **serverless APIs** by enabling AWS Lambda provisioned concurrency, reducing **cold-start latency by 85%**.
- Integrated new pages into the **production environment** using **feature flags**, enabling controlled rollouts and safe releases.
- Implemented **i18n-driven** page structures, **cutting translation overhead** and standardizing platform UI.

George Mason University Fairfax, VA | Sep 2024 – Feb 2025
Research Assistant (NASA Funded) Java, Javascript, Python

- Built **10+ ML workflows** in Geoweaver to train and run **GPU**-based models on **Hopper** systems for scientific analysis.
- Created an interactive **workflow visualization UI** for **real-time monitoring** with dynamic labeling and **D3.js** graph rendering.
- Leveraged **Physics-Informed Neural Networks (PINNs)** for snow water equivalent forecasting for accurate geospatial predictions.
- Removed unused Jupyter notebook dependencies and cleaned legacy code, **reducing build time by 30%**.

CHUBB Aug 2022 – May 2023
Software Engineer Intern Python, SQL (SSMS)

- Automated repetitive data mapping and migration tasks using **Python scripts**, reducing manual workload by **50%**.
- Worked with **SQL Server** and **Azure Pipelines** to migrate large-scale **legacy datasets** with automated validation checks.
- Wrote utilities to clean and standardize **XML datasets**, making the **ETL pipeline** run without frequent failures.

T-KATAL Dec 2021 – Feb 2022
Web Application Developer React, NestJs, Firebase, Google Cloud Platform

- Developed key features such as automating **OTP validation**, Razorpay **payment flow**, **page-level analytics** to track user actions.
- Set up cloud hosting on **GCP** and **AWS**, configuring environments and deploying full-stack applications.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, C#, JavaScript, TypeScript, SQL, R
Web Development: React, Node.js, Angular, Spring Boot, REST APIs, GraphQL, Microservices, Postman
Databases: MySQL, PostgreSQL, DynamoDB, MongoDB, Redis
Machine Learning & AI: TensorFlow, PyTorch, Scikit-learn, Keras, Pandas, NumPy
Cloud & DevOps: Git, Docker, Kubernetes, Terraform, Kafka, AWS, Azure, CI/CD (Jenkins), Linux CLI, JUnit, PyTest, Agile/Scrum

PROJECTS

Microservices Student Survey Application | *Java, Springboot, AWS, Rancher, Jenkins, Git* | link

- Built and deployed a **RESTful microservice** student survey app with real-time CRUD operations using **Amazon RDS**.
- Deployed on **AWS EC2** using **Docker** containers, orchestrated via **Kubernetes** and **Rancher**.
- Established a **CI/CD pipeline** with **Jenkins** and **Git** for automated deployment and version control.

User Activity Recognition System | *PyTorch, Scikit-learn, Pandas, NumPy* | link

- Built a **CNN-GRU model** for **multi-sensor data**, combining **spatial and temporal** features to boost classification accuracy by **12%**.
- Applied **Fourier-transform** noise reduction, outperforming traditional models such as **SVMs** and **Random Forests**.

CloudMart – AI-Powered E-commerce Platform | *AWS, GCP, Terraform, Docker, EKS, CI/CD, Amazon Bedrock* | Link

- Developed a full-stack e-commerce app with real-time AI product recommendations using **Amazon Bedrock**.
- Provisioned infrastructure using **Terraform** and deployed on **AWS EKS** with CI/CD via **CodePipeline**.
- Integrated **Lambda**, **DynamoDB**, and **GCP BigQuery** for real-time interaction and analytics.

EDUCATION

George Mason University— *Masters in Computer Science* **(CGPA: 3.97)** Fairfax, VA | Aug 2023 – May 2025
VNR VJIET — *Bachelors in Technology, Computer Science* **(CGPA: 3.6)** Aug 2019 – May 2023

CERTIFICATIONS

AWS Certified Developer – Associate **AWS Cloud Practitioner** **Azure Fundamentals** **Google Data Analytics**

ACHIEVEMENTS

Distinguished Academic Achievement Award (GMU, 2025) • 4th place, Microtask Hackathon (2024) • Published research journal on LSTM-based stock prediction
